Unit 1 of Algebra I builds on that experience by asking students to analyze and explain this process and to reason quantitatively and use units to solve problems. Students will develop fluency in writing expressions and linear equations in one variable, and will use them to solve problems. Concepts:

## **ALGEBRA 1 - New Mexico Public Education Department**

Algebra Overview Seeing Structure in Expressions. Interpret the structure of expressions; Write expressions in equivalent forms to solve problems; Arithmetic with Polynomials and Rational Functions. Perform arithmetic operations on polynomials; Understand the relationship between zeros and factors of polynomials; Use polynomial identities to solve problems

Resources include: notes, worksheets, activities, posters, editable quizzes, and editable study guides and tests.

## **Algebra 1 Curriculum - MATH**

Algebra 1 formalizes and extends students' understanding and application of functions. Students primarily explore linear functions (as well as linear piecewise, absolute value, and step functions), quadratic functions, and exponential functions. Within these parent functions, students develop a deep understanding of the features of each function—graphically and algebraically—and use these to guide creation of models and analysis of situations.
