## Applied Research And Evaluation Methods

A program evaluation is a systematic study using research methods to collect and analyze data to assess how well a program is working and why. Evaluations answer specific questions about program performance and may focus on assessing program operations or results.

## Understanding Applied and Basic Research

Applied research “aims at finding a solution for an immediate problem facing a society, or an industrial/business organisation, whereas fundamental research is mainly concerned with generalisations and with the formulation of a theory”. Applied research is considered to be non-systematic inquiry and it is usually launched by a company, agency or an individual in order to address a specific ...
