The U.S. Preventive Services Task Force says all women between ages 50 and 74 should have a mammogram every 2 years. The American Cancer Society says if you're over 40, you should get one each year.

CV Example for Workers Over 50 - myPerfectCV

Definition of Physical Changes. Matter makes up everything we can see in the universe. Since matter is not ever created or destroyed, it changes form to cycle through the world. In science, physical changes of matter are when the look, feel, or smell of it changes, but the chemical properties do not. Physical changes typically impact the state of matter.
