The Adventist Home — Ellen G. White Writings

Carbon dioxide is removed from the atmosphere by photosynthesis. CO₂ is an important greenhouse gas. current level Late summer minimum: summer growth removes CO₂ from the atmosphere. Early spring maximum: takes less CO₂ due to slow plant growth in winter plus produces CO₂ from tree leaf decomposing. 1 . 8 p p m p e r y e a r (from Understanding

Bing: Chapter 1 The Atmosphere

Chapter 1—Atmosphere of the Home. Home Is the Heart of All Activity—Society is composed of families, and is what the heads of families make it. Out of the heart are “the issues of life”; and the heart of the community, of the church, and of the nation is the household. The well-being of society, the success of the church, the prosperity of the nation, depend upon home influences. 1 AH 15.1.
