Using coefficients, we can balance chemical equations so that the equation demonstrates conservation of atoms. The law of conservation of atoms says that no atoms are lost or gained in a chemical reaction. The same types and numbers of atoms must be found in the reactants and the products of a chemical reaction.

Cpo Focus On Physical Science

The whole world around you unfolds according to the laws of physical science. This entire book is about physical science, and we will take a look at what physical science actually is in the first chapter. Key Questions: 1. What is physical science and why is it important to learn? 2. What is “everything” in terms of science?
