Check out this Gizmo from @ExploreLearning! Create circuits using batteries, light bulbs, switches, fuses, and a variety of materials. Examine series and parallel circuits, conductors and insulators, and the effects of battery voltage. Thousands of different circuits can be built with this Gizmo.

### **Bing: Explore Learning Element Builder Gizmo**

In the Independent and Dependent Events Gizmo, students explore independent and dependent events by drawing colored marbles from a bag. The marbles are either replaced after each draw (independent event) or not replaced (dependent event). After each simulation, students compare the experimental probability to the theoretical probability.
