InterQual criteria are nationally recognized evidence based treatment guidelines produced by the McKesson Company. All authorization decisions are reviewed using the InterQual criteria, however, in addition to meeting those criteria, MHN also reviews the plan of treatment for appropriateness and timeliness.

InterQual 2020: What's New? - Business Wire

The Magellan Care Guidelines direct both providers and reviewers to the most appropriate level of care for a patient. While these criteria will assign the safest, most effective and least restrictive level of care in nearly all instances, an infrequent number of cases may fall beyond their definition and scope.

InterQual® Level of Care Criteria | Change Healthcare

InterQual Criteria are produced using a rigorous development process based on the

principles of evidence-based medicine (EBM) to give you complete confidence in the underlying guidance the criteria provide. Our content development and updating approach involves a five-step process: 1. Identify content for development and updating

InterQual® Ambulatory Care Planning Criteria | Change ...

InterQual Procedures criteria are derived from the systematic, continuous review and critical appraisal of the most current evidence-based literature and include input from our independent panel of clinical experts. To generate the most appropriate recommendations, a comprehensive literature review of the clinical evidence was conducted.

Long-Term Acute Care Hospitals Admission Criteria

InterQual criteria are clinically based on best practice, clinical data and medical literature. They are updated continually and released annually. For certain services, we supplement the InterQual criteria with our own medical and behavioral health clinical criteria. Log in to use the InterQual Level of Care Criteria application

Interqual Care Criteria Guidelines

InterQual® Ambulatory Care Planning Criteria help identify when imaging studies, procedures, durable medical equipment, molecular diagnostic tests, specialty pharmacy medications, and specialty referral consultations are appropriate. The criteria can be applied prospectively or retrospectively to manage utilization and identify differences in practice patterns.

InterQual Criteria for Bariatric Surgery - Harvard Pilgrim ...

InterQual ® criteria are clinically based on best practice, clinical data and medical literature. The criteria are updated continually and released annually. InterQual ® criteria are a first-level screening tool to assist in determining if the proposed services are clinically indicated and provided in the appropriate level or whether further evaluation is required. The first-level screening is done by the utilization review nurse.
