Linguistic typology - UZH

Linguistic typology is concerned with classifying human languages and with identifying structural similarities and differences between these languages. Dialectology is the study of typically vernacular and regionally restricted and/or distinctive forms of language. Dialect typology focuses on the intersection between typology and dialectology.

Linguistic Typology Uzh

It has long seemed plausible that the languages of hunter-gatherer societies might be systematically different from those of food producers. Compared to food-producing societies, hunter-gatherer societies are usually smaller and less complex, with lower population density. They are often based on kinship as a main organizing factor and usually lack large-scale sociopolitical organization with ...
