## Mentoring in Academic Medicine: A Systematic Review

Mentorship was reported to have an important influence on personal development, career guidance, career choice, and research productivity, including publication and grant success. Conclusions Mentoring is perceived as an important part of academic medicine, but the evidence to support this perception is not strong.

## Mentorship in academic radiology: why it matters ...

Context Mentoring, as a partnership in personal and professional growth and development, is central to academic medicine, but it is challenged by increased clinical, administrative, research, and other educational demands on medical faculty. Therefore, evidence for the value of mentoring needs to be evaluated.

## Mentoring In Academic Medicine Teaching Medicine

Many textbooks and articles in multiple disciplines have been written about the art of mentorship. 1 For example, in medical education, advising programs and professional development during clerkships provide mentoring. 2 In a collaboration of mentee and mentor, Straus and Sackett, 3 a pioneer in evidence-based medicine, highlighted the following evidence-based reasons why academic clinicians benefit from mentoring: they publish more papers, get more grants, are promoted faster, and are more ...

## **Mentoring faculty in academic medicine. A new paradigm?**

Abstract. In this paper, we discuss an alternative structure and a broader vision for mentoring of medical faculty. While there is recognition of the need for mentoring for professional advancement in academic medicine, there is a dearth of research on the process and outcomes of mentoring medical faculty. Supported by the literature and our experience with both formal dyadic and group peer mentoring programs as part of our federally funded National Center of Leadership in Academic Medicine ...

## **Mentoring Resources | Academic Affairs | University of ...**

Mentoring is particularly important for the success and retention of faculty underrepresented in medicine (URiM) [71, 72] who may have limited access to mentors and often face additional challenges, such as bias, prejudice, lack of confidence, and the feeling of isolation, which can lead to attrition from academic careers. For URiM faculty, finding a mentor of similar background is challenging.
