## **Water and Ocean Governance Programme - Brochure | UNDP**

Sustainable development is the organizing principle for meeting human development goals while simultaneously sustaining the ability of natural systems to provide the natural resources and ecosystem services on which the economy and society depend. The desired result is a state of society where living conditions and resources are used to continue to meet human needs without undermining the ...

## **Sustainable Development, Ocean Governance and Marine ...**

Ocean governance is the conduct of the policy, actions and affairs regarding the world's oceans. Within governance, it incorporates the influence of non-state actors, i.e. stakeholders, NGOs and so forth, therefore the state is not the only acting power in policy making. However, in terms of the ocean, this is a complex issue because it is a commons that is not 'owned' by any single nation/state. The consequences of this has resulted in humankind abusing the oceans' resources, by ...
