Introduction. Decision making is a complex process that involves giving consideration to numerous factors and perspectives.

(PDF) Decision-making: Theory and practice

Making Decisions. Making decisions is a very complicated procedure, and requires the consideration of many different factors. A major factor is a person's perception. A person does not come to a decision by it simply popping up in their mind. Instead, decisions are constructed on perceptions, which are essentially shortcuts which are used when judging situations and information, which shape decisions, especially when they are of an ethical and moral nature.
