Carbon Steel Market: Global Industry Analysis and Forecast ...

This market punishes businesses that emit more than the limit, while rewarding those who emit less. Thus, the carbon market provides environmental efficiency in the use of resources. Although the value of the European Union Emissions Trading market was \$11 billion in 2005, it reached \$176 billion in 2011 (Narin, 2013). This increase in 6 years is promising for the future of the carbon market because it can encourage businesses and countries to use clean technology.
