Sound + Environment: Sonic Explorations

A soundscape is the acoustic environment as perceived by humans, in context. The term was originally coined by Michael Southworth, and popularised by R. Murray Schafer. There is a varied history of the use of soundscape depending on discipline, ranging from urban design to wildlife ecology to computer science. An important distinction is to separate soundscape from the broader acoustic environment. The acoustic environment is the combination of all the acoustic resources, natural and artificial,

With Soundscape, designers can create a sonic environment that reduces sound and encourages positive emotional and physical responses in a space.

The Soundscape - Inner Traditions

The soundscape--a term coined by the author--is our sonic environment, the ever-present array of noises with which we all live. Beginning with the primordial sounds of nature, we have experienced an ever-increasing complexity of our sonic surroundings. As civilization develops, new noises rise up around us: from the creaking wheel, the clang of the blacksmith's hammer, and the distant chugging of steam trains to the "sound imperialism" of airports, city streets, and factories.

environment as the context, soundscapes can be used as a powerful expression of our imagination and lead us to deeper connections to the natural world. In this experiential and participatory virtual session, you will learn about soundscape ecology, a new branch of science that explores the interaction between sound and space.

The Soundscape: Our Environment and the Tuning of the ...

The word “Soundscape” is a term coined by the composer and writer R. Murray Schafer which means our ever-present sonic environment. Through history this soundscape has continued to increase in complexity as the world of the post-industrial revolution continues to evolve. As our awareness concerning the dangers of toxic waste and environmental pollution grows, there is however a lack of awareness concerning the ever-increasing pollution of our sonic environment.

The Sound of Life: What Is a Soundscape? | Smithsonian ...

Our conceptual framework of soundscape ecology is based on the causes and consequences of biological (biophony), geophysical (geophony), and human-produced (anthrophony) sounds. We argue that soundscape ecology shares many parallels with landscape ecology, and it should therefore be considered a branch of this maturing field.
