Tutorials in introductory physics homework solutions are a series of resources and materials designed to supplement class work and the existing textbooks in physics. They are formulated, not to help the student solve physics problems, but to equip them with basic physics concepts. Like finance homework solutions, it also equips them with reasoning skills necessary for application of physics concepts.

### **Physics Textbooks :: Homework Help and Answers :: Slader**

The tutorial can be used with any of the major introductory physics texts. Collaborative learning—Intended to be used in a small-group environment of three to four students. Each topic includes a sequence of worksheets and assignments: Pretests—Short, free-response qualitative questions that test understanding of basic physics concepts. These are usually administered after material has been covered in lecture and prior to the tutorial.
