## **Intro to Air Masses and Fronts Web quest**

Description. This is a webquest that goes into some details about the different types of weather fronts and air masses. Students first define several weather-related terms, then go to an animation that shows them how cold, warm, stationary, and occluded fronts work, with explanations. The second website has more information about cold, warm, and occluded fronts (it includes stationary

front information, but not as much as the other three).
