Who's in Charge?: Free Will and the Science of the Brain (Unabridged) audiobook, by Michael S. Gazzaniga... The father of cognitive neuroscience and author of Human offers a provocative argument against the common belief that our lives are wholly determined by physical processes and we are therefore not responsible for our actions.

Who's in Charge?: Free Will and the Science of the Brain ...

In this new light, the mind is not a determined entity, but is instead a free agent that is responsible for its actions, and hence capable of being legitimately held accountable for them. This is the argument that Gazzaniga makes in his new book 'Who's in Charge? Free Will and the Science of the Brain'.

(PDF) Who's in charge? Free will and the science of the brain

Free will is meaningless, goes the mantra; we live in a “determined” world. Not so, argues the renowned neuroscientist Michael S. Gazzaniga in this thoughtful, provocative book based on his Gifford Lectures - one of the foremost lecture series in the world dealing with religion, science, and philosophy.
